Training Program
Summer term 2024

The Graduate Academy of the SC SimTech promotes excellence in postdoctoral and doctoral education across all disciplines in the field of simulation science. It offers an interdisciplinary structured and international training program in order to prepare the candidates with optimal conditions for their successful PhD and beyond.

TRAINING PROGRAM

The training program at GS SimTech consists of the following elements as specified in the doctoral supervision agreement (according to Section 4 (6) of the Doctoral Degree Regulations at least 9 credit points must be achieved):

**Subject-specific courses (at least 6 CP)**
(May be selected from the regular courses offered by the University of Stuttgart or from suitable courses outside the University of Stuttgart.)

**Key qualification (at least 1 course)**
(May be selected from the program offered by GRADUS.)

**Units offered by GS SimTech (at least 3 units)**
(To be selected from the “Academy Program” of GS SimTech.)

- **GS Seminar (at least 1 seminar)**

- **Additional GS units**
  (This program includes, for example, career counseling, mentoring schemes as well as industry connections.)

**Annual poster presentation**
(For example during the annual status seminar of SC SimTech.)

GS Seminars during the summer term 2024
(to promote interdisciplinary networking among the doctoral students and to expand their scientific horizon)

"Calculating Free Energy Differences from Molecular Simulation: Theory and Practical Applications"
Lecturer: Prof. Niels Hansen
Date/ Time: To be discussed with the participants
Language: English
Proof of attendance: Regular presence and active participation in exercises and presentations
Please register via email.

"Science communication - visualising science and more"
Lecturers: Véro Mischitz and Dr. Lorenz Adlung
Date/ Time: 9.+10.+16.07.; 9 a.m. to 5 p.m.
Language: English
Proof of attendance: Regular presence and active participation in exercises and presentations
Registration: Please register via https://form.jotform.com/241004573904349

GS Seminars during the summer term 2024

"Motion in Human and Machine“
Lecturer: Prof. Syn Schmitt and Prof. Dr.-Ing. Tamim Asfour (KIT)
Date/ Time:
Karlsruhe Institute of Technology, Institute for Anthropomatics, Tuesday, April 30, 10 am - 4:30 pm.
University of Stuttgart, Institute for Modeling and Simulation of Biomechanical Systems, Monday, May 6, 10 am - 4 pm.
After each laboratory visit, small projects are offered for collaborative work in small groups, which can be worked on in the following weeks after the seminar.

Language: English
Proof of attendance: Regular presence and active participation in exercises and presentations

Coursera for doctoral students
The interdisciplinary nature of our cluster requires a broad spectrum of practical knowledge in different tools and skills that may not have been part of a PhD student’s education. Skills such as Git, Data Management and Machine Learning can be acquired. Lectures are prepared by official and well-known universities and companies such as Princeton University and IBM respectively in a broad spectrum of application.

Further information on “How to apply” can be found in Confluence.
Please register via Coordination GS SimTech.
